Summary

Computer Engineering student skilled in Python, SQL, Data Analysis, and AWS Cloud Services. Experienced in machine learning and data analytics projects, with a strong foundation in data processing, visualization, and predictive modeling. Seeking opportunities to apply technical and analytical skills in Data Engineering and Analytics roles.

Experience

Sales Data Analysis Project

Analyzed sales data using Python and SQL to identify trends and customer purchasing patterns. Cleaned and transformed raw data to improve data quality and accuracy, created dashboards and visualizations to track key sales metrics, and generated actionable insights to support data-driven business decisions.

Avocado Price Prediction Model

Developed a machine learning model to predict avocado prices using historical market data. Performed data preprocessing, feature engineering, and model training using Python to generate accurate price forecasts.

Education

B.Tech, Computer Engineering, Pune, Aug 2024 — Jun 2027

Vishwakarma University

Publications and Presentations : Machine Learning Based Cab Fare Prediction

Skills

- **Python**
- **SQL**
- **AWS Cloud Services**
- **Data Analysis**
- **Project management**

Certifications and Licenses

Nasscom Data Processing and Visualisation
Introduction to Cloud Computing AWS/AZURE
UDEMY Full Stack Webdevelopment
IBM Introduction to Software Engineering
Coursera Data Management
